

Trend Micro™

MANAGED SERVICE PROVIDER PROGRAM

Transform your business as you increase value to your customers

Join our managed service provider (MSP) program and transform your business with easy to deploy, manage, and sell security solutions. Trend Micro brings you more recurring revenue opportunities with endpoint, data center, mobile, email, and cloud solutions that deliver the best protection for your customers.

A SINGLE VENDOR FOR:

Endpoint

- Cloud-based security detects even the most advanced malware through machine learning and layered security features.

Data Center

- Server security for physical, virtual, and cloud deployments should perform in a way that fits each environment efficiently and consistently.

Email

- No-maintenance-required email solutions that delivers continuously updated protection to stop spam, malware, spear phishing, and the latest ransomware threats.

“For five years in a row, Trend Micro has been the number one content security provider worldwide for small businesses.”

Canalys,
Worldwide IT Security Market 2017

“I was surprised by the number of solutions Trend Micro offered—they have everything we need to fulfill 100% of our customer’s requirements”

Dylan Hunne,
Azra Solutions

TREND MICRO MANAGED SERVICE PROVIDER PROGRAM AVAILABLE PRODUCTS

Worry-Free Business Security Services

An industry-leading cloud security solution that protects your business data and safeguards your customers' PCs, laptops, servers, Macs, iOS devices, Android devices, and other devices, such as point-of-sale machines and tablets.

Hosted Email Security

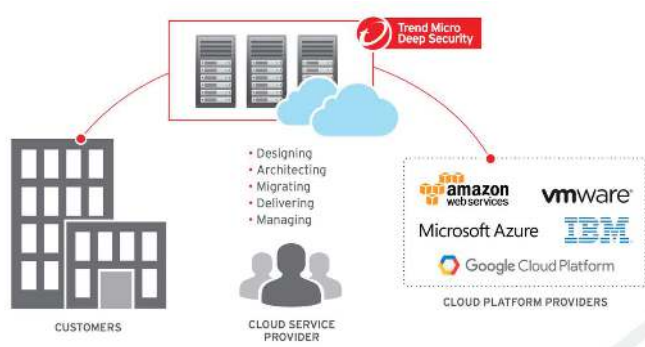

A no-maintenance cloud solution that delivers continuously updated protection to stop spam, malware, spear phishing, ransomware, and advanced targeted attacks before they reach your network. It protects Microsoft® Exchange, Microsoft® Office 365, Google Apps, and other hosted and on-premises email solutions. Email Encryption is included.

Cloud App Security

Trend Micro™ Cloud App Security enables you to embrace the efficiency of cloud services while maintaining security. It protects incoming and internal Office 365 email from advanced malware and other threats, and enforces compliance on other cloud file-sharing services, including Box, Dropbox, Google Drive, SharePoint® Online, and OneDrive® for Business.

Deep Security

Trend Micro™ Deep Security™ delivers automated security for the cloud with the broadest range of security controls in a single platform. It allows you to build new applications or move existing services to the cloud with confidence.

Trend Micro Remote Manager

MSP partners can reduce their costs by centrally and securely managing multiple Trend Micro™ Worry-Free™ Business Security, Trend Micro™ Hosted Email Security, and Trend Micro™ Cloud App Security customers from anywhere with Trend Micro Remote Manager.

This secure, hosted web console helps MSPs increase profitability by reducing the costs of servicing customers as business grows:

- Centrally manage multiple Worry-Free Business Security, Hosted Email Security, and Cloud App Security customer accounts from a single web console
- Maintain full customer touch and complete configuration control of customer installations
- Instantly view the security posture of a single or multiple customers

License Management Platform

The Licensing Management Platform allows MSPs to self-provision product licenses on demand: 24x7x365.

The License Management Platform for Service Providers is a web-based solution that lets you create, manage, and maintain customer licenses for Worry-Free Business Security, Hosted Email Security, and Cloud App Security. Partners can re-brand the platform, the product, and the communication templates available in the solution.

Simple customer creation techniques—such as batch uploads and pre-defined registration keys—drastically reduce the cost of operation for Managed Service Providers while reporting capabilities enable more efficient billing and auditing.

Gartner®

“No matter what kind of business you have, Trend Micro has the products, support, and partnership that will help you succeed”

Dylan Hunne,
Azra Solutions

“We’re more efficient with Trend Micro, because we waste less time on hold to fix orders, fix licenses, and get to tech support”

Jeff Kochis,
Norman Alan Company
